Skills

JavaScript

ReactJs

Redux

Git

Next JS

Linux

I am a Frontend Developer with 2 years of experience in React and state management like Redux with proficiency in web technologies and build fast, interactive, and scalable web applications using ReactJS, NextJS, and modern design libraries like Material UI and Tailwind CSS.

Work History

2023-02 -

Current

Front End Developer

Blink Digital, Remote

Key Responsibilities:

- Developed and maintained web applications using **React.js** and **Next.js**, ensuring high performance and SEO optimization through **server-side rendering (SSR) and static site generation (SSG)**.
- Designed and implemented responsive and modern UIs using **Tailwind CSS** and **Material-UI**, improving user experience and accessibility.
- Integrated **AWS Amplify** for backend services, authentication, and cloud storage, enhancing application scalability and security.
- Deployed and managed applications on **Linux-based environments**, optimizing performance and ensuring server reliability.
- Collaborated with cross-functional teams to develop and implement features, conduct code reviews, and maintain best practice

Technologies Used:

- **Frontend:** ReactJS, NextJS, Redux, Tailwind CSS, Material-UI
- **Backend/Cloud:** AWS Amplify
- **DevOps & Hosting:** Linux, DigitalOcean, AWS, Vercel, Netlify
- **Tools & Version Control:** Git, GitHub, VS Code

Education

2019-01 -

2023-01

B.Tech: Computer Science

ABES Institute of Technology - Ghaziabad, UP

GPA: CGPA-7.46

2016-01 -

Matriculation: xth

Extra-Curricular Activities

Reading Books and learning about other technologies

Project

Projects i worked on:

Project Name: **Impuls**

- I specialize in building secure and scalable frontend applications using React.js, AWS Amplify for authentication, and Material UI for modern, responsive UI design. My focus is on creating dynamic user interfaces with seamless authentication flows."
- Tech Stack: React.js (Next.js), AWS Amplify, Material UI

Project Name: **Metaverse Madness, Infocentric, Blink Digital, Appcentric**

- Create visually stunning and interactive landing pages using React.js and Framer Motion. I focus on smooth animations, engaging user experiences, and high-performance designs that leave a lasting impression.
- Tech Stack: React.js (Next.js), Redux, Framer Motion, Tailwind CSS
